EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Gibbons on 8 November 2004.

The application has been amended as follows:

In claim 8, line 8 replace "has" with "is" and delete "of length";

In claim 8, line 8 replace "on the" with "an" and delete "of length";

In claim 18, line 5 replace "has" with "is" and delete "of length".

2. The following is an examiner's statement of reasons for allowance: The claimed structure is a microduct with upper and lower portions, one of which is attached to a device where the microduct width is 10 times the height. Andrews shows an electronic structure with cooling ducts which have a width greater than the height but do not teach the factor of 10. Chang shows a water jacket used for cooling an electronic device but again, the factor of 10 is not specifically taught. Thus the claimed device is not shown in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
